## THE ALIEN PROBLEM

### SENATE BILL PENDING TO MAKE POSSIBLE LOCATION OF ALIEN SLACKERS

Legal advisors were very busy this morning at the headquarters of the Exemption Board with a string of registrants many of whom were Mexicans who needed a great deal of help and attention.

Chairman Lanterman was on duty but did not look very vigorous and went home at noon. He said he found the work in excellent shape and matters progressing as satisfactorily as could be expected. The work of classification is up to date and Questionnaires are coming in fairly well. A considerable percentage is behind the schedule however, and when asked to give reasons the chairman attributed failures to turn them in to carelessness on the part of registrants, to the fact that enlistments have been made which have not been reported, and to the further fact that many registrants are Mexican aliens who are ignoring their obligations.

In this connection the chairman called attention to a letter just received by the Board from Richard K. Campbell, Commissioner of Naturalization at Washington, containing the following statement:

"A bill has been introduced in the United States Senate by Senator Calder of New York, containing a distinct provision which will place the Bureau of Naturalization in a position to render efficacious aid in disclosing thousands of aliens now claiming exemption to which they are not entitled. The location of each declarant claiming exemption as an alien will mean the saving of an American from premature call to the colors. In the large cities of the West this question is of the greatest importance, not only because aliens are enabled to step into positions vacated by native Americans, but because of the injustice of the burden resting upon the native citizenry on account of the present inability of this Bureau to lend adequate aid.

"It is hoped this bill will pass in the early weeks of this session of Congress. It has been favorably reported as an emergency war measure by the Senate Committee on Immigration and merits the active support of all who have the best interests of the country at heart."

Wednesday night attorneys W. T. Sprowle, Kyle, Z. Grainger, E. M. Daniels, H. P. Goodwin, F. L. Muhleman, and A. S. Mackay were employed pretty constantly with registrants, and this morning Mr. Mackay was assisted by W. R. Flint, Olin Spencer, Mr. Muhleman and E. M. Daniels.

## SCOTTISH RITE FETE

### GLENDALIANS ARE GUESTS AT NEW YEAR FESTIVAL IN LOS ANGELES

Among those who represented Glendale at the annual New Year fete of the Scottish Rite organizations at their Cathedral on Hope street were Mr. and Mrs. Mattison B. Jones and Mr. and Mrs. Frederick Baker who motored to Los Angeles together Monday evening. This is the big affair of the year among members of the Scottish Rite and its last celebration was in all respects up to the quality of previous entertainments. Mrs. Baker characterizes it as "a very swell affair." An excellent vaudeville program entertained the guests the fore part of the evening and was followed by a dance which ended in a confetti battle and din of horns when the clock struck twelve and the new year was welcomed.

### D. A. R. MEETING POSTPONED

On account of the near approach of the annual convention of Chapters of the D. A. R. to be held in Hollywood, the regular reciprocity meeting in Los Angeles will be dispensed with this month, and there will be no meeting of the Glendale Chapter until the first Thursday in February, when the Chapter will meet at the home of Mrs. J. H. Braly when the State Regent will be entertained and will address the organization.

### BIRTHDAY TREAT

Frederick Baker, Jr., son of Mr. and Mrs. Frederick Baker, was given a delightful treat by his mother who, in celebration of his sixteenth birthday made up a party which included his chums Harry Dunlop and Gerald Heinen and gave the boys a long happy day in Long Beach. The morning was spent at the plunge, then there was a fine picnic lunch in Bixby Park, and the afternoon was devoted to the sights on the Pike. The guests had a royal time and so did Mrs. Baker.

## RED CROSS MEETING

### LAWSHE CHOSEN VICE-CHAIRMAN GLENDALE CHAPTER AMERICAN RED CROSS

One of the most interesting business meetings of the Glendale, California, Chapter of the American Red Cross that has been held since the organization of the Chapter, was held Wednesday evening, January 2, 1918, at the home of J. H. Braly, Chairman, 205 N. Brand boulevard. The meeting was a business one in every sense of the word and marks an important epoch in the history of the organization.

At the opening of the meeting by request a letter was read from A. L. Lawshe, of 334 North Kenwood street, in which he very emphatically made known the fact that he is in hearty sympathy with the wonderful work being done by the Red Cross in the world and especially did he dwell upon the great work being done by the local Chapter.

Articles and by-laws setting forth the rules and regulations by which the Chapter shall be governed were read and after a few minor changes were unanimously adopted. These are published elsewhere in this issue of the Evening News.

The Chair then recommended that A. L. Lawshe be elected to the office of Vice Chairman to fill the position left vacant by the resignation of Rev. T. F. McCrea several weeks ago.

Chairman Braly explained in a few words that Mr. Lawshe was formerly Third Assistant United States Postmaster-General having held the position under the administration of President Roosevelt, and that he was a man of superior ability and would if elected to this important position, likely give much of his time to that which will build up the local Chapter.

On motion Mr. Lawshe was elected Vice Chairman in the midst of great applause by those present. In response to a phone message the officer elect entered the Braly home and in a short address outlined his plan of work in connection with the Glendale Chapter.

Chairman Braly announced that he had been able to secure free of charge the use of the large hall above the Bank of Glendale on Brand boulevard, near the Pacific Electric depot, and the headquarters of the Chapter will be located there within a few days. The present headquarters will likely be used for a shop or sales room under the direction of Miss Douglas of the Salvage department. Mr. Lawshe promises to devote from 9 a. m. to 4 p. m. of each day to official work of the Chapter.

The announcement was made that the local Chapter now has a membership of about 2400.

### INJURED BOYS DOING WELL

Mrs. Herman Paine tells the Evening News that her boys, injured in an auto accident Monday afternoon, are doing very nicely. Derrick's broken leg was reset this morning and the broken nose carefully dressed. It is thought this member can be so treated as to leave no disfigurement. It will be exceedingly painful, as will be Derrick's other injuries, but he is full of pluck and will wear it through. Herman's injuries will yield more rapidly to treatment and he can be out before many days. Leslie Siberell is also improving very fast and it is thought will soon be out of danger.

### GUESTS AT PARSONAGE

Rev. and Mrs. Mottern, of 1109 W. Fifth street, had as dinner guests on Monday, Prof. Clarence Gates, formerly of the Glendale High School faculty and his mother, Mrs. E. E. Gates, of Los Angeles, and on Tuesday Miss Sue Ochenrider, of Riverside, and Mr. and Mrs. George F. Daugherty and daughter, Louise. Miss Ochenrider enjoyed the trip to the Pasadena Rose Tournament with Rev. Mottern and family and returned to Riverside Tuesday night.

### SHIPS BUILDING RAPIDLY

Will Theobald, of 1564 Oak street, who went down to San Pedro Monday and Wednesday to see about a job in the ship yards, says that there were 400 to 500 men there on the same errand and soldier guards had to keep them back from the gates. The wages are high and the positions desirable. As soon as the new machinery is placed and yards enlarged, it is thought all applicants can be accommodated. One ship, recently launched, is being rapidly completed and others are under way, Mr. Theobald was told by San Pedro citizens.

WEATHER FORECAST—Fair tonight and Friday. Colder. Westerly winds.

## CROWDER URGES ANNUAL DRAFT

### PROVOST MARSHAL ADVOCATES REGISTRATION OF MEN WHO REACHED 21 SINCE FIRST REGISTRATION

(Special Service to Glendale Evening News)

WASHINGTON, January 3.—The immediate registering for military service of all men who have become 21 since the first draft registration, was urged today by Provost Marshal General Crowder in his annual report to the Secretary of War.

If this is done and a similar registration is held every year, 700,000 physically fit men in Class 1 will be available for service each year, he stated. This will not necessitate taking men from the deferred exemption class. In all probability it will be impossible to fill all military needs from Class 1, the report said.

Crowder said the situation as to skilled labor and farm workers is serious now, especially in ship-building plants and munitions factories. There will probably be a shortage of farm laborers in the spring.

(Special Service to Glendale Evening News)

WASHINGTON, January 3.—The complete reconstruction of the war revenue law is sought by Senator Smoot of Utah, who will introduce in a few days his bill which he claims will simplify the context and provisions of the present law passed at the last session and bring in more revenue.

Smoot's bill hits excess profits harder than the present law. Income taxes are about the same as now; however income tax provisions will be much simpler.

## SOVIET APPEALS TO GERMAN PEOPLE

(Special Service to Glendale Evening News)

PETROGRAD, January 3.—Rejecting Germany's peace plans, the executive committee of the Soviet adopted a resolution this afternoon appealing to the German people and urging their assumption of the right to negotiate a general democratic peace.

### U. S. UNIFORM CLOTH INFERIOR

WASHINGTON, January 3.—If the United States had undertaken to clothe her soldiers as well as Germany clothes hers the shortage of uniforms and overcoats would be much greater, M. E. Driscoll, president of the Artigan, N. J., woolen mills, testified today before the Senate Military committee.

Dr. Scoll, woolen expert, shown samples of American and German uniform cloth, unhesitatingly classed Germany's as a much higher grade.

"Of course it takes much longer to manufacture than our cloth. My opinion is the uniforms now being issued are too light," Driscoll said.

## TO RESCUE LAND OWNERSHIP FOR THE AMERICAN FARMER

America faces the menace that most of its farms will be tilled by a tenant peasantry. For the safeguarding of democracy, the United States should be made a country of small farms, tilled by men who own their land, living in conditions of independence, self-respect, and well-being. The way to accomplish this is to extend to the whole country the land-settlement plan on which California has just embarked, through the developments now inaugurated under the Breed Act. Such are the declarations made by Elwood Mead, Professor of Rural Institutions in the University of California, in an address which he has just delivered in Philadelphia at the annual meeting of the American Economic Association.

That a land commission ought to be created at an early date was proposed by Professor Mead—a commission composed in part of Federal and in part of State authorities, to investigate and report a plan for a new national land policy which shall safeguard the opportunity of the young farmer to marry early in life and establish a home and a family on land which he himself owns. He proposed as a national policy that the United States and the states should co-operate in colonizing lands under the irrigation and reclamation projects developed or to be developed by the government. He urged that such lands should not only be supplied with water but also cleared, leveled for irrigation, and supplied with farm structures and equipment, the settler to be required to make only a small initial payment, and to have thirty or forty years to pay the balance due, under the amortization plan. To prevent speculation in land, he recommended consideration of the plan that such farms should remain under the control of the owner only so long as he or his heirs should farm them, and should not be subject to sale except by approval of public authority.

The agricultural and economic aspects of land settlement have been neglected and overlooked by the government, declared Professor Mead, in the development of the nation's great reclamation projects, although the engineering problems have been handled with great capacity, economy, and efficiency. Because of neglect of measures which would prevent land speculation, much land under the reclamation projects has fallen into the hands of speculators and not of actual settlers. He points out that on one government project in the West, where four hundred settlers are now at work and will probably be able to pay for their farms, 580 have given up and gone away. On a typical land settlement project developed in Australia, where the land was developed and cleared, and a proper credit system developed, expert advice supplied for the settlers, only fifteen per cent have been unable to meet their payments on the land, and prosperity, contentment, and a desirable community life have resulted.

"Broader opportunities must be given to poor men to buy farms," declared Professor Mead. "Continued increase of non-resident ownership of land and the extension of the area cultivated by tenants must be checked. The nation wants food, but men to provide it can not be had. The movement of labor into the cities goes on. The high cost of living has a close relation to the narrowing opportunities of the farm.

"In no respect is there greater need of a change in American agriculture than in the treatment of the American farm laborer. Intelligent, dependable, trained men, willing to work on farms for wages are as essential to success as are the farm owners. The farm laborer now, as a rule, lives in a bunk house; he has no social status. He competes with the Asiatic and the peon and degenerates into a hobo. If he is married, he is usually separated from his family for long intervals, which is bad for the family and bad for society. The new land-settlement plan which has been adopted by California provides for changing these conditions by recognizing the farm laborer as a valuable member of rural society and by creating for him a congenial environment. The farm laborer will be able to buy a home, which will include two acres of land and a comfortable, sanitary cottage. The initial payment required will be small, and the following payments will extend over a period of twenty years. This will enable the laborer to live with his family. He will have a place where he can employ his time profitably when not working for wages. His family will be able to keep a cow, some pigs, and poultry, which, by providing a large part of his family's food supply, will enable them to live cheaply. The greatest benefit of this innovation is the influence it will exert on the lives and the characters of the farm laborer's wife and children. A home of their own will make them independent. It will create character and self-respect. More than any other influence it will check the tendency to regard farm laborers as social outcasts and the present tendency to render it necessary to import people who are politically undesirable to till our idle fields."

## THE SWISS EMBASSY IN WAR TIMES

Hans Sulzer, business man, is the new Swiss envoy extraordinary and minister plenipotentiary in Washington. His arrival has created an atmosphere of confidence here in the Swiss situation.

Sulzer was the first business-man-diplomat the capitol saw. More have come since—and more are due. August Phillips, the Dutch minister enroute here, is of the same school: unversed in diplomacy, but with a record as a business man.

Apparently President Wilson has let it be known in European chanceries that the one-time popular diplomacy—the secret sort—is no longer in vogue in Washington.

More than six feet tall, Sulzer—with a staff of economists, clerks and stenographers, has had the difficult task of securing for the Swiss, raw materials needed to keep the nation going. He has been successful.

Switzerland today has succeeded in maintaining fairly amicable relations with Germany—where all coal is bought; and has made an admirable record in the matter of being neutral. So strictly neutral have the Swiss been that they enjoy the confidence of both coalitions of warring nations. Need more be said?

## TROPICO TRUSTEES MEET

All members of the Board of Trustees were present at the regular meeting Wednesday evening except Trustee Veselich. Also present were City Attorney Shaw, Marshal Gould, Chief Fairfield, and Health Officer Mabry.

The session was a short one, but few items of business requiring the attention of the Board.

A communication from the County Council of Defense relative to an effort to check imposition in connection with the soliciting of funds for alleged war philanthropies, was read by the Clerk and ordered placed on file.

**Back Taxes**

A letter from the City Clerk of South Pasadena relative to penalties for back taxes which are being received by that city, was also read by the City Clerk and ordered placed on file. Commenting on the communication Mr. Van Wie stated that Tropico is also beginning to receive the penalties due on delinquent taxes which have heretofore been with-held by the county.

A communication from the Yuletide Committee relative to donations for Christmas boxes for soldiers was also read by the Clerk and ordered placed on file.

Clerk Van Wie also transmitted a request from the Baskerville Audit Company for instructions relative to the date to which the city books of the city shall be audited and closed. In the general discussion of the matter which followed the date of January 10th it was agreed would be the latest date to which they could be left open, in all probability.

**Daisy Miller Case**

The suit of Daisy Miller against the city was referred to and to the end that Glendale officials might be in position to act in the matter, Trustee Henry moved that the case be referred to City Attorney Evans of Glendale with instructions to take charge of same, his compensation to be the same as that allowed by Glendale for similar work. The motion was seconded by Trustee Alspach and carried and City Clerk was instructed to confer with city officials of Glendale relative to the matter.

**Demands**

Warrants which had been approved by the Finance Committee were then read and ordered paid as follows:

Valley Press Company for printing $6.00; Edwards (garbage contract), $36; Roake (Fire Dept.) $3; Pac. Tel. & Tel. Co. (Telephone exten.) $1.35; Fairfield (salary) $40; Mabry (Health Dept. supplies) $18.41.

The Board then adjourned.

## NINE YEAR OLD GIRL SLOWLY PETRIFYING

"Progressive myositis ossificans," one of the rarest pathological manifestations known to science, has put in its appearance again.

In plain every day English "progressive myositis ossificans" means gradual transformation of tissue and cartilage into bone. A little nine-year-old girl, whose name is withheld, is now in the Jefferson Hospital in Philadelphia awaiting the day when she will be completely petrified. This, according to surgeons studying the case, is probably but a few years off.

The case—the second of its kind known to Dr. John Chalmers Da Costa—came to this city from a Wilmington, Del., hospital as soon as the nature of the ailment became established. Prof. W. W. Hawke has the child under special observation, and will conduct a series of experiments to analyze the patient's digestive processes.

The disease is thought to be caused by the improper functioning of the parathyroids, small masses of glandlike epithelium lying beneath the thyroid glands in the neck. It is the parathyroid glands which control the supply of lime salts, or bone-building elements, to the body, and if these glands are removed death invariably follows.

The child appears normal to the untrained eye, but when one touches the muscles of the neck, arms, and back they are as rigid and hard as stone. The disease attacks progressively all the voluntary muscles of the body. The involuntary muscles are unaffected, death resulting from inability to eat or move any portion of the body. Dr. Costa places the outside limit to the age which the child may attain at 20 years.

## IMPERIALISM NO JOKE, RUSSIANS REFUSE TO PAY

It took several months for the Washington Telephone Company to learn that the Revolutionists in Russia were really in earnest.

In the telephone directory, either through typographical error or intention, the embassy here was classified as "Imperial Russian Embassy."

An official noted it when the monthly bill was received. Unable to see the joke, he returned the statement with the information that when the mistake in the directory and on the books was rectified, a settlement would be made.

A month later a second statement.

And again the statement was returned "for correction."

Recently the new directory was issued and the correction made. And, as agreed, a check for the amount due was forwarded by the embassy to the telephone company.

## FIRST AID CLASS

After a two weeks' interval, members of the Tropico First Aid class met in the City Hall Wednesday evening for a review and quiz by Dr. Mabry on fractures, etc.

The answers to the questions propounded showed a fairly intelligent working knowledge of first aid principles and practice with regard to broken bones and dislocations but to make assurance doubly sure the doctor announced that the same subject would be continued in the next lesson in addition to some new work.

Members are showing increasing interest and are congratulating themselves on having such a live class.

### THESE BIDDIES SPEEDING UP

Mrs. James A. Farrell, 123 East Broadway, said when she read in the Evening News about the strike of the hens she had to laugh, for her experience was so different. She has 12 Rhode Island pullets, now 9 months old and she gets 10, 11 and sometimes 12 eggs a day and has been so doing for some weeks. With eggs at 60 cents a dozen, these pullets certainly pay their way most royally. Mrs. Farrell says she feeds a dry mash made up of 5 parts heavy bran, 1 part soya bean meal (proteina) three-fourths part medium beef scrap, three-fourths part feed meal and 1 part charcoal. This she keeps before them all the time and once a day she gives a generous ration of grain, made up of a mixture of Kaffir corn, milo maize, oats, barley and a very little cracked corn. She feeds table scraps liberally but boiled potato peelings very sparingly. Mrs. Farrell thinks it is all in the feeding and she will be glad to give desired information to anyone.

### NOVEL BICYCLE THEFT

Chief Herald, of the Glendale Police force, reports a new scheme for stealing bicycles of which Walter Krukow of Jackson street, was the victim. A day or two ago Walter was persuaded by a stranger to accompany him, on his bicycle, to Eagle Rock. After the city limits had been passed the persuasive stranger stopped and sent the boy on an errand to a nearby house, telling him he would watch the wheel in his absence. Without any suspicions Walter undertook the errand and when he returned the man and the wheel were gone. The police are looking for the thief without much prospect of locating him.

### ALIEN ENEMY SUSPECT

Last Monday a hermit in the Verdugo hills known as "Ihrke," who has been living in a little shack constructed out of odds and ends of material which he has collected, was arrested by the Glendale police as a suspected alien enemy, and ordered out of this locality. He refused to go and was sent to the County jail on a charge of vagrancy to await investigation by the federal authorities. He admits that he is a German sympathizer.

A meeting for the organization of the jury will be held right away, after which it will be in session for three or four days a week throughout the year. If the future can be judged by the past, there will be plenty of important work for it to do.

### W. C. T. U.

The Glendale W. C. T. U. will hold its anniversary meeting and reception to new members at the home of Mrs. Thos. Wright, 305 S. Louise street, Friday afternoon at 2:30, Jan. 4. ### WAR LECTURE

"The Universities and the War" by Dr. Armin Otto Leuschner, Ph.D. Sc.D. Professor of Astronomy of the University of California, is the first of a series of lectures which are to be given by members of the faculty of U. S. C. It will be delivered Friday night at 8 o'clock in the auditorium of the Los Angeles Polytechnic High School at Washington and Hope Sts., and will be free to the public although tickets of admission must be obtained either from members of the University Extension Committee or from the Extension Office, 509 Union League Building.

The series will deal with questions of interest in connection with the war, and it is being promoted by a committee of fifty prominent citizens of Los Angeles. They will in various ways asssist Miss Nadine Crump who is in charge of extension work in Southern California. E. G. Judah, president of the Merchants' and Manufacturers' Association, will preside at the lecture, and President Benjamin Ide Wheeler will make the opening address. The lectures will be given weekly and there will be twelve in the series.

### RECEPTION TO NEW MEMBERS

There will be a reception given tomorrow, Friday, evening, in the parlors of the First Methodist church, to the men members. This will include all those who have united with the church since October 1st, the beginning of the church year. A program consisting of greetings from the organizations of the church, and musical selections, will be given. There will be a fellowship or get-acquainted time in which the older members, in time of membership, will act as hosts. At the close of the program and as a climax of the fellowship hour, refreshments will be served in the Social Hall.

All members and friends of the church are invited. The official members and their wives are all expected to be present and take the lead as hosts and hostesses. The Official Board and the Ladies Aid are in charge of the reception which is scheduled for 8 o'clock.

### DO THOU LIKEWISE

Dr. Mills, Episcopal church rector, handed in a list of names of soldier boys for our roster this morning. If all the ministers, teachers, lodge, club, and P.-T. A. members would do likewise we would soon have every soldier listed.

### THEY MET BY CHANCE

H. J. Horn and wife, 771 S. Brand, went over to see the parade at Pasadena on New Year's day and just happened to meet a nephew of Mr. Horn, who is a Pasadena business man, a cousin, Rev. John Hunter of Los Angeles, and a lady cousin from New York City, now teaching at Berkeley. They all enjoyed a dinner together. This is Mr. Horn's second sojourn in California. He was an Indianapolis business man, wholesale dry goods, for many years, but always felt the lure of California, as all his uncles were '49ers and one of them, John MacDougall, was the first elected governor of the state. Another uncle helped Jotham Bixby lay out Long Beach, or Wilmore City as it was then called.

### KEEP OPEN HOUSE

Mrs. H. E. Fry, of Cerritos avenue spent last Friday at Dead Man's Island with her husband who is Secretary of the Y. M. C. A. at that point and where open house was maintained all day for the entertainment of soldiers and sailors. Mrs. Fry helped with the serving and declares that thirty-five gallons of punch and forty pounds of cake were consumed by the lads. In the evening an entertainment was given by the Dramatic Department of U .C. S.

Harry Cross, of Mira Loma avenue, who is head Scout Master for California and Washington, with headquarters in San Francisco, was home for three days last week but returned yesterday to the Bay City.

### AMBULANCE PILLOW REPORT

Since school ended last June the children of Glendale have cut enough material to make 186 pillows, of which 171 have been sent away. We think this is good, as since school began we have had only three schools working. We hope to do a great deal better this year. These are the cutters for the past six weeks:

Glendale, Cal., January 3d, 1918.
To the Glendale Public:

Fellow Patriots.—We have reason to be encouraged by the many evidences of patriotism daily manifested and be proud of our young men who have enlisted for service, and for many others awaiting the call. And no doubt hundreds of others would be eager and willing to go if not disqualified by age, etc. We have made an enviable community record in the Red Cross, Y. M. C. A. and similar work. But now we face another problem—that of increased food production. Our need was never greater. And here is a work that everyone—with scarcely an exception—can lend a hand, can cultivate a home garden. And by so doing help themselves, increase the food supply of the nation and help to feed the boys across the sea.

Will you do this? In reply to the question of which general he most feared, President Lincoln replied "General Indifference." Let it never be said of us that with abundant water, productive soil and sunny skies we surrendered to General Indifference and failed to do our part in these critical times.

Put your good resolution into action and help with your presence at the meeting on Saturday evening, January 5th, 7:30, at 1017 Broadway. The object of which is community co-operation in cultivating our home gardens.

### PRESBYTERIAN DRIVE

The Glendale Presbyterian Prayer Meeting drive opened Wednesday evening with enthusiasm and a full room. After praise and prayer, and a message in song by Mr. and Mrs. Arnold des Plantes; the pastor gave a practical exposition on the Sunday School lesson for the coming Sabbath, preceded by many interesting facts and a brief outline of the life and Gospel of St. Mark. At the close a few moments were devoted to testimony and expressions of interest in the "Drive." It is hoped that this fine meeting will double itself next time.

Just as a Mighty Oak

Can grow from a small acorn,—so can a fortune grow from a small bank account.

Both when well started have a steady growth. You can start your account this month. Even though it be a small one at first, if you will steadily add to it in a few years you will have a capital worth working for.

If you live in Glendale, make up your mind to start an account in this Glendale Bank and watch your money grow with the bank and the town.

## TUJUNGA

W. H. Wieman and father motored to Indio for a visit with Mr. Wieman Sr.'s brother last Saturday and although the gentleman is 98 years young, he enjoyed the trip as well as the visit immensely, not tiring so much as the others.

"Tad" Wieman, of Michigan University, is visiting with his parents here. He has enlisted in Uncle Sam's Aviation Corps and will soon leave for his work. We think the father and mother of Mr. Wieman are doing their share in furnishing, not only the boys, but one daughter for the cause.

A number of residents of the valley witnessed the automobile accident on the long grade this side of La Crescenta, when three young men lost control of their car and were thrown out and seriously injured.

A number of residents of Tujunga went to Pasadena to witness the Rose Tournament. While others left Pasadena and visited here to avoid it. Such is the consistency of human nature. All who attended enjoyed the parade.

Mr. and Mrs. Shivas, who removed to Thermal last month, were visitors in Tujunga during the holiday week.

Mr. Green of Pine street, exchanged his home for one in Casa Verdugo belonging to Mr. Jenkins, who will move here with his family. Mr. Jenkins, who is in the employ of Stetson & Barrett of Los Angeles, has been coming here every week during the past two years and realizes the fine climate and water and all the other good things that enhance the beauty of our valley. The exchange was made through Dean & Co.

Mr. and Mrs. Wright and children were at La Crescenta January 1st, helping Mr. Teitsworth celebrate his birthday.

The ladies of the Red Cross called a meeting at Bolton Hall on Wednesday. There was a good attendance, and preparation was made for an all-day sewing bee on Friday, Miss Benedict having brought work from Pasadena which will be given out on that day. Fourteen new members were added to the list.

W. H. Wieman did not preach at Bolton Hall on Sunday, as he was in the Imperial Valley for a few days.

Mrs. D. C. Dean and Miss Benedict, Secretary of the Tujunga Auxiliary, were in Pasadena Friday to get work and yarns for the people here. The Chapter praised the forty pairs of mules sent in by the auxiliary as the finest they had received. Hereafter there will be plenty of work for all who wish to sew, as arrangements for the same were made by Mrs. Dean and Miss Benedict. So do "your bit."

Mrs. O. Wright visited with her parents, Mr. and Mrs. M. C. Teitsworth part of last week.

News received from Long Beach that Mr. and Mrs. Ben Clark, former residents here, received as a Christmas gift a fine baby boy.

Glenn Morgan, son of Mrs. W. Morgan, left on Monday for Lee's Camp, Virginia, to enter the civil engineers' training school of which he is captain.

Mr. and Mrs. Copeland, of Pine street, left for Detroit, Michigan, on Thursday evening.

Miss Helen Green is visiting at Whittier for a few days.

Mr. Wieman is putting in a new foundation and shed for Miss Bailey on Sunset boulevard.

Mr. Jenkins is contemplating several changes in the Green house that he has just purchased.

There will be an open social meeting under the auspices of the Board of Trade at Bolton Hall on Tuesday evening, January 8th. These meetings which will be held on one evening every month, are for the purpose of getting better acquainted with each other, and talking over things that will be of vital interest to every one. Mr. Lynch, manager of the Public Service Department of Glendale, and Mr. Evans, City Attorney of Glendale, will be present as honored guests. Mr. Lynch will talk on ownership of Public Utilities, and Mr. Evans will talk on Municipality and Benefits of Incorporation. There will be light refreshments. Everything free. Everybody come.

# ELECTRIC COOKING

Someone has said--"The discovery of a new food or the proper cooking of it is more beneficial to humanity than the discovery of a new star."

Cooking shouldn't be a task. It's a pleasure with the proper materials—the right kind of a range—the joy and pride of fine cooking is yours.

The Electric Range really makes cooking a delight. It insures the perfect uniformity of results. Absolutely clean and safe. You ought to have one.

## CITY OF GLENDALE
## PUBLIC SERVICE DEPARTMENT

GLENDALE 1300 CITY HALL

## MEMORANDUM

To All County Councils of Defense:

In extending good wishes for the new year and appreciation of the services rendered by the various County Counciis during the present year, we look into the future with a deep sense of responsibility, a responsibility that is personal and that is equally so to all of our people.

It is our duty and the duty of the County Councils of Defense, and of all other persons in positions of influence or authority to see to it that our people are not permitted to go their usual quiet ways, misled by a false sense of security.

We are at war with the most merciless and brutal nation known in human history, and its agents and friends are among us. These German supporters and sympathizers would see this country humiliated and beaten to the ground. They must be hunted down as we would hunt venomous snakes in the grass.

While we are sending young men to fight the Huns in France and Flanders, those who remain here must see to it that the Huns at home are subdued. Every man who opens his mouth against the Government at this time, must be treated as an enemy and compelled to shut up. This is no time for half measures. Alertness in this may save your sons or brothers.

Our country is imperilled. The trials through which this Republic has passed in the one hundred and forty-one years of its history, are trivial compared to the tremendous burden and peril that is upon us at this time. All that was done for us in the founding of the Republic—all that skill and patriotism and industry have accomplished since—our hopes for the future—all are now in the balance, and we are in great danger of losing all, unless the people of the whole country devote themselves and their resources to winning the war.

This must be the first and the chief business of all and we venture to impress it upon our County Councils as their duty to arouse the people to a sense of danger and by every available influence bring them to a realization of their individual obligation. Organize and stimulate activities, find ways and means to get everyone into some form of rendering aid to the common cause.

We began the work of both State and County Councils of Defense with an unsurveyed field before us. We had to find the way with no precedents to guide us. Much has been done, but the task is yet chiefly before us. We shall be put to the severest test and it will require all of our strength, courage, endurance and sacrifice to secure the victory, but it is worth it. All must share the effort, that they may enjoy the victory.

There may be other ways by which the County Council and its members can render splendid service, but full cooperation with the State Council of Defense is sure to afford ways for good work, and while thoroughly appreciating everything that has been done, we must all do more and we therefore look to you for even greater activity and fuller cooperation with us than in the past.

We have the greatest confidence that this war is going to be won for Democracy, but the quicker it is won the less sacrifice of men will be required. Therefore, we must unify our forces for a mighty stroke against the world's common foe.

Let us make the Councils of Defense for California, both State and County, the most effective organization of the kind in the United States.

Very truly yours,
STATE COUNCIL OF DEFENSE,
By A. H. Naftzger,
Vice Chairman.
